## This Vehicle's Glossary

Below are the specific definitions for events that appear in this vehicle's report.

More information is available in the full [AutoCheck glossary](#).

| Term                  | Section Location                           | Definition   |
|-----------------------|--|--|
| Junk                  | Major State Title Brand Check              | The vehicle's parts have been salvaged for reuse and the remainder of the vehicle has been destroyed or scrapped. This vehicle has been declared a total loss, is not road worthy and should not be titled again for use on the road.  |
| Salvage               | Major State Title Brand Check              | A salvage vehicle is a vehicle that has been wrecked or damaged beyond repair; declared a total loss by the insurer; or declared a total loss by reason of theft. When an insurance company as a result of a total loss settlement acquires a vehicle, the insurance company must apply for a Salvage Certificate. If the owner retains possession of a salvage vehicle, the owner must obtain a Salvage Certificate before receiving a total loss statement from the insurance company.   |
| Rebuilt/Rebuildable   | Major State Title Brand Check              | The vehicle was a salvaged vehicle that was refurbished with new or used parts. An affidavit of repair from the rebuilder or individual making the repairs, stating what repairs were made to the vehicle and that the vehicle is now rebuilt and road operable, may be required to obtain a rebuilt/rebuildable title. These vehicles must also pass a state safety inspection before being allowed back on the road.   |
| Odometer Problem      | Major State Title Brand Check              | The vehicle has odometer-related problems. These may include discrepancies such as not actual miles, a broken odometer, exceeding a vehicle's mechanical limits, a mileage discrepancy, or suspect miles.  |
| Major Damage Incident | Damage Check                               | When a (i) State agency or third party reported an event that did or may have resulted in vehicle frame or mechanical damage, such as a collision or incident such as vandalism or theft, or (ii) a third party reported that an inspection indicates that a vehicle appears to have sustained frame or other damage. Not all damage events are reported to AutoCheck and the damage severity of reported events will vary. In all events AutoCheck recommends that prospective vehicle purchasers conduct a detailed vehicle inspection prior to purchase of a pre-owned vehicle. |
| Total Loss            | Other Title Brand and Specific Event Check | Insurance companies label a vehicle a "total loss" when the cost to repair the vehicle to its pre-damaged state exceeds the cost of the vehicle's worth, or actual cash value. Insurance companies must follow certain state law (defined percentage of damage before it can be deemed a total loss) and they also can set their own standards for totaled vehicles.   |
| Corrected Title       | Other Title Brand and Specific Event Check | The State DMV has issued a corrected title for the vehicle.  |
| Lease Use             | Vehicle Use                                | Vehicle was registered as lease vehicle.   |
| Accident              | Accident Section                           | State or municipal has reported an accident or collision that may sustain. Not all damage events are reported to AutoCheck and the damage severity of reported events will vary. In all events AutoCheck recommends that prospective vehicle purchasers conduct a detailed vehicle inspection prior to purchase of a pre-owned vehicle.  |
